Early Acoustic Dylan 1961-1965

In four decades of live concert performances, Bob Dylan has dazzled audiences with distinctive styles and legendary music. Each reinvention brought on more passionate and powerful performances.

Early Acoustic Dylan established Dylan as the "God" of the times, followed by his *1966 Electric Set* which outraged his audiences. Dylan's popular mid-1970's *Rolling Thunder Revue* was a highlight of his career, while his *Gospel Years* performances as a born-again Christian are only now gaining recognition. Dylan's *Never Ending Tour* highlights the culmination of his artistic genius.

"When you see Highway 61 Revisited, you are going to see and hear Bob Dylan live!"

—Mickey Jones, Drummer, Bob Dylan and The Band, 1966 World Tour
